THE Athletics Refund Policy

If the sport season is cancelled after player fees have been submitted, all expenses incurred up to that point will be deducted, and any remaining funds will be divided by number of paying players. Of the remaining funds, 10% of the player's refund will be retained as reserve funds for the following season.

Please note that expenses accumulate prior to the start of conditioning, practices, or games. Therefore, if the sport season is cancelled prior to player fee submission, but after practices begin, the players' fees will be expenses incurred up to that point divided by number of players.
